# BU HALEEBA GROUP OF COMPANIES

MR ABDULLA BUHALEEBA

**CHAIRMAN**
Buhaleeba Group

# CHAIRMAN MESSAGE

**Fired by dreams and shaped by a vision to create a construction company that was built upon honesty, openness, professionalism and innovation - genuine values derived from UAE culture - I launched BHC in 1984.**

Of course, my team and I faced many challenges in the beginning, but I always held true to my belief that business always requires the same ingredients for success: a winning combination of talent, commitment, and the right management.

Staying true to this belief has allowed the company to grow to where it is today, one of the most sought after and respected contractors in the region, employing more than 4,000 skilled and motivated personnel.

At BHC we've built our reputation on quality workmanship and fast, friendly customer service, resolving logistical hurdles, adhering to rigid timelines and committing to pre-agreed budgets, allowing us to thrive as a leader in the construction industry. We listen and we deliver.

Every business is defined by its values, and BHC is no exception. Our values are at the heart of the company and influence everything we do. These values shape our desire to make a difference one project at a time. As a result, when you work with us, you're hiring a team of professionals who are focused on delivering superior construction that actively contributes to community building and the growth, prosperity and advancement of the UAE construction industry.

MR AHMAD HUSSEIN

**CEO**
Buhaleeba Group

# COMPANY VISION

**BHC is a company that is driving progress and, with our clients and partners, building better communities through safe, smart and efficient construction. Our long track record, in tandem with progressive thinking and a creative approach, has allowed us to be a true construction partner for all of our valued clients.**

Establishing close relationships with our clients is a key element when it comes to meeting and often exceeding expectations. We nurture each client relationship from the initial concept through to completion, often maintaining this connection years after a project is finished.

Our strengths undoubtedly lie in the diversity, quality, and technical experience of our personnel, with employees who are highly qualified, continuously trained, and experienced in all aspects of construction. Our goal is simply to be the best and continually improve.

At BHC we believe in reliability, integrity, professionalism, innovation, quality, safety, teamwork, and respect. These values are embodied in what goes on at BHC from day to day. Employees must display ethical and trustworthy behaviour, and in return the company provides fair, equal conduct in a safe and healthy workplace.

Our team is committed to maximising client satisfaction through innovative and value added project delivery, and I am personally very proud of the work we do. So whether you are a potential customer, a prospective employee, or just interested in learning more about us and how we operate, I invite you to discover for yourself why BHC is the ultimate choice when it comes to construction excellence.

# INTRODUCTION

Bu Haleeba Contracting is a company born from innovation and forward thinking. We don't just build projects. We develop longstanding relationships, regularly working in partnership with the world's most important contractors and most demanding designers. This has led us to work on some of the most prestigious projects in Dubai.

Whatever the project though, hard work, integrity and dedication are always at the forefront, with these key values complementing our significant investment in plant, machinery, and people.

Since we first opened our doors for business in the UAE in 1984, we have been committed to providing the highest calibre of professional and site personnel possible in order to meet the quality demands and schedule objectives of the modern construction industry.

Timeliness, efficiency, and value-per-square-foot are the focus of BHC's efforts, and we pride ourselves on offering the highest levels of service and attention to detail, keeping you updated with regular progress reports every step of the way, thereby ensuring that your project is completed on time and within budget.

With honesty and integrity being the blueprints for our success, we are committed to providing an outstanding construction experience from the initial conception through to completion, resulting in innovative solutions for both our clients and our community.

# OVERVIEW

**Headquartered in Dubai, BHC has earned a reputation for creating high quality and prestigious engineering projects, including such blue-chip developments as Madinat Jumeirah Resort, Royal Mirage, Emaar Square, and Al Barsha Mall.**

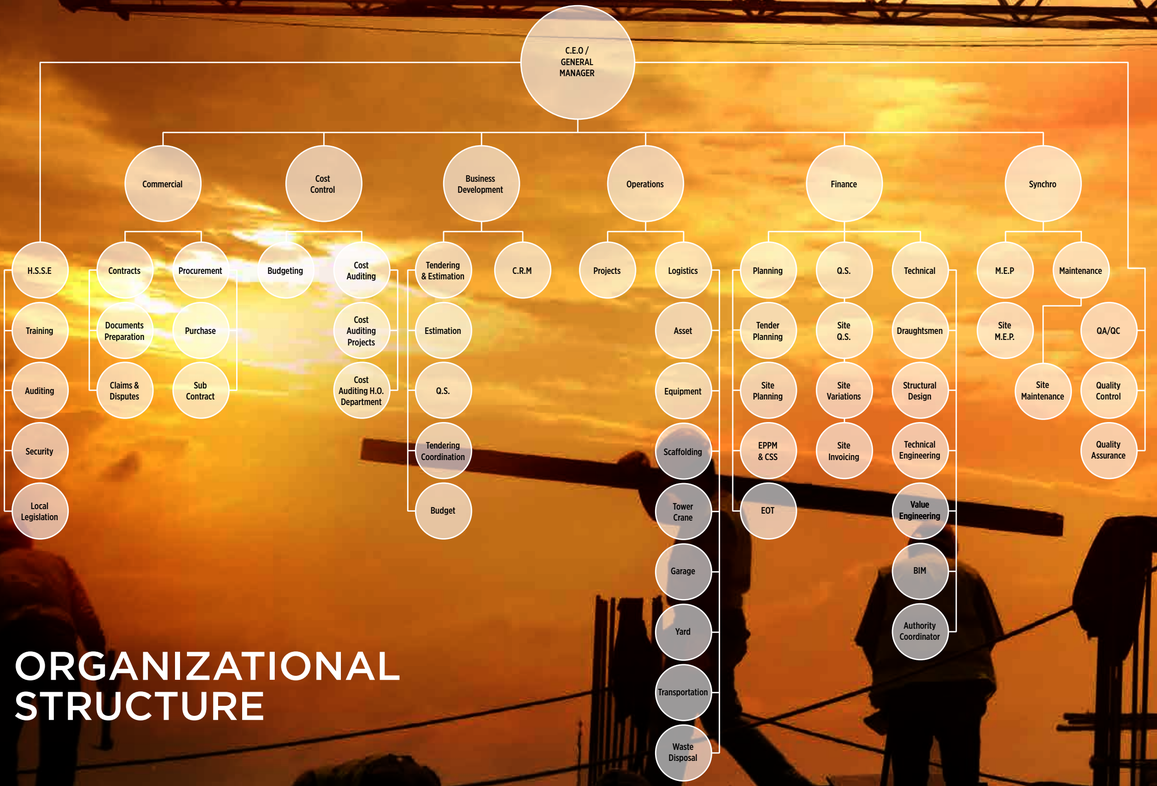

The company is built around its talented, dedicated people, who are focused on providing the right solutions for clients' individual requirements, before supplying the expertise to turn those solutions into a quality project. Our knowledge of materials and building technologies is extensive, and we actively enjoy helping clients find multiple avenues through which their project can be both sustainable and cost-effective.

While the management team sets the standards for the company, our skilled and highly motivated employees follow through and provide the workmanship we are renowned for. Safety, wellness, and a positive attitude are at the very foundation of our culture. We strive to provide a ZERO accident and injury-free work culture.

We boldly identify ourselves as a cut above the rest. Unlike many firms, BHC takes pride in your project. So while other companies focus on volume, we possess a singular project focus – yours. This allows us to do things right first time, eliminate waste, and work more efficiently.

Put simply, BHC carries out complex projects quickly and precisely. We achieve this through timely, risk adverse, custom-engineered solutions that breathe life into our clients' visions. Project owners benefit considerably from our streamlined yet comprehensive methodologies, allowing for successful project execution from conception to completion.

# ORGANIZATIONAL STRUCTURE

# HUMAN RESOURCES

Whatever the skyline or building, every Bu Haleeba Contracting (BHC) project starts with a team of dedicated employees. That's why the company's Human Resources (HR) department is committed to encompassing the values, visions, ideals, norms, systems and habits of BHC, with its role sitting at the heart of the overall success of the business. HR provides overall policy direction on human resource management issues and administrative support functions related to the management of employees for BHC.

The mission of the department is to be a strategic partner by providing HR programmes that attract, develop, retain, and engage a skilled and diverse workforce for the company.

In addition to providing strategic central HR functions, the department is also responsible for administering health benefits, workers compensation, and other employee benefits programmes.

BHC HR always ensures that while discharging its responsibilities, human and civil rights are protected, accountability is enforced, and fairness has a seat at the table. These are the main aspects of HR and help to emphasise workplace culture, benefits, and transparency.

BHC has well-trained, skilled, and professionally qualified employees (engineering and other categories) of different nationalities, which the company considers to be its most valuable asset.

# QUALITY ASSURANCE

Two of the primary principles included in Quality Assurance are ‘fit for purpose’ and ‘right first time’, which is why the quality of all of our equipment, materials and products must meet stringent regulations and standards.

BHC Quality Assurance assists clients in ensuring compliance with all contractual specifications, mandatory regulations and quality standards. It comprises administrative and procedural activities implemented in a quality system that allows all client expectations to be met. This is achieved through fully understanding and accepting all requirements at every stage of a project, from initial site meeting through to final handover.

Our goal is simply to be the best and to continually improve. This is accomplished through focused teamwork, pride in our work, quality-controlled systems, and by hiring and educating the best people we can possibly find.

You can rely on our ability and integrity to make sure that both your own requirements and those of relevant regulators and other third parties are fully met and effectively demonstrated.

# QUALITY CONTROL

Quality Control at BHC is an integral part of the company, with management and employees being committed to providing a high quality service by continuously improving the customer experience, human resources, and company operations.

The objective of our Quality Control system is to provide a framework for the delivery of high quality construction services to clients. All personnel understand the requirements of this Quality Control policy and are committed to abiding by its rules.

All BHC employees are fully trained in both their individual disciplines and health & safety, with our supply chain partners being regularly vetted and briefed in order to ensure the very highest standards are understood and maintained.

BHC constantly monitors its quality performance and implements improvements as and when appropriate.

## Objectives

- To provide extraordinary service and reliability.
- To provide quality workmanship at all times.
- To provide value-for-money.
- To satisfy the requirements of our clients and relevant regulators.
- To provide our services in a professional and ethically responsible manner.

# HEALTH, SAFETY, SECURITY AND ENVIRONMENT (HSSE)

While quality work is what we seek to achieve daily, safety is always first and foremost in our minds. Taking precautions to ensure the safety of both our workers and visitors on the job site is our top priority and a fundamental aspect of our business. We insist upon best industry practice to ensure the health, safety, and security of all our employees and stakeholders, as well as the protection of the environment and communities wherever we conduct our business.

Our HSSE programme is based on ISO 14001 and OSHAS 18001 standards, applicable internationally, regional and local health safety, and environment (HSE) regulations and statutory obligations, plus additional requirements as appropriate and where applicable to our operations.

**We drive our BHC HSSE Management System to:**

- Strive towards no harm, and prevent adverse environmental impact.
- Focus our responsibilities toward preventative measures to ensure the safety, security, and health of our employees, and the security of our assets and our stakeholders.
- Ensure the implementation and sustainability of corporate HSSE expectations as a key requirement to our processes.
- Develop a competent workforce and strive to promote a sustainable world-class HSSE culture for everyone.
- Focus our efforts on identification and management of all HSSE risks.
- Meet with all applicable industry standards and governmental regulations.
- Hold ourselves accountable collectively for our HSSE performance.

# LOGISTICS

**Equipment**

The Logistics Department plays a vital role in supporting Buhaleeba Contracting Projects with well-managed operations that produce cost-effective and timely results. Delivering customised technological solutions to help drive value, it works side-by-side with the organisation's other business units and entities, ensuring that vehicles, machines, and plant are operated safely by trained personnel and in a legally compliant manner.

The department's carefully developed services are combined to create a bespoke solution that fits precisely with a project's individual and unique requirements, assisted greatly by the company's commitment to remain at the forefront of the development and use of the very latest information and communications technology.

**Facilities**

The Logistics Department's comprehensive range of warehousing and transportation solutions adds a high value to the company's services. Managing the movement of people, materials, and equipment at the construction site, it closely monitors the following sections: Garage, Transportation, Assets, and Waste Disposal; Lifting, Equipment, Yard, and Tower Cranes; and Scaffolding.

In the construction industry, on-site work flow is critical to the bottom line. Consequently, the Logistics Department provides services that allow Buhaleeba Contracting Projects to focus on its core competency, without the worry of handling materials and machines logistics. This helps to increase revenue, facilitate services, and reduce costs.

# MAJOR COMPLETED PROJECTS

# MADINAT JUMEIRAH RESORT PHASE 1

Madinat Jumeirah Resort is an authentic recreation of ancient Arabia capturing the natural beauty of the region. The Mina A'Salam Five-Star Hotel is located at Al Safouh, which is part of Madinat Jumeirah Resort, one of our other prestigious projects at the heart of the Dubai seacoast adjacent to Burj Al Arab. The facilities are interconnected by three kilometres of waterways and landscape gardens. The features of Madinat Jumeirah, operated by Jumeirah International, consist of restaurants, conference, and banqueting facilities.

As the main contractor for Mina A'Salam Hotel, we have completed the project within the stipulated time frame required by the client. Interior designs were completed in coordination with our subcontractors, without any fit-out subcontractor, all external finishes were done using pigmented plaster and coloured glass-fibre reinforced concrete (G.R.C) feature.

The Madinat Jumeirah is situated convenient to Palm Jumeirah and Dubai Marina.

**Location:** Al Safouh First, Dubai, UAE

**Client:** H.H. Sheikh Mohammed Bin Rashid Al Maktoum

**Consultant:** M/s. Al Burj Engineering Consultant

**Year of Completion:** 2003

**Built Up Area:** 516,324.10 sq. ft.

Mina A'Salam Five-Star Hotel

Souq & Convention Centre

# MADINAT JUMEIRAH SOUQ PHASE 3

The Madinat Jumeirah Souq is the traditional Middle Eastern shopping centre with stalls and restaurants. The whole souq as well as the Mina A'Salam water canal opened officially along with the completion of our project. The tenants started the fit out works three months prior the completion and handed over the project on time. s .The convention centre and multipurpose avenue is one of the biggest in U.A.E; all local and international events take place at the ballroom of the convention centre.

**Location:** Al Safouh First, Dubai, UAE

**Client:** H.H. Sheikh Mohammed Bin Rashid Al Maktoum

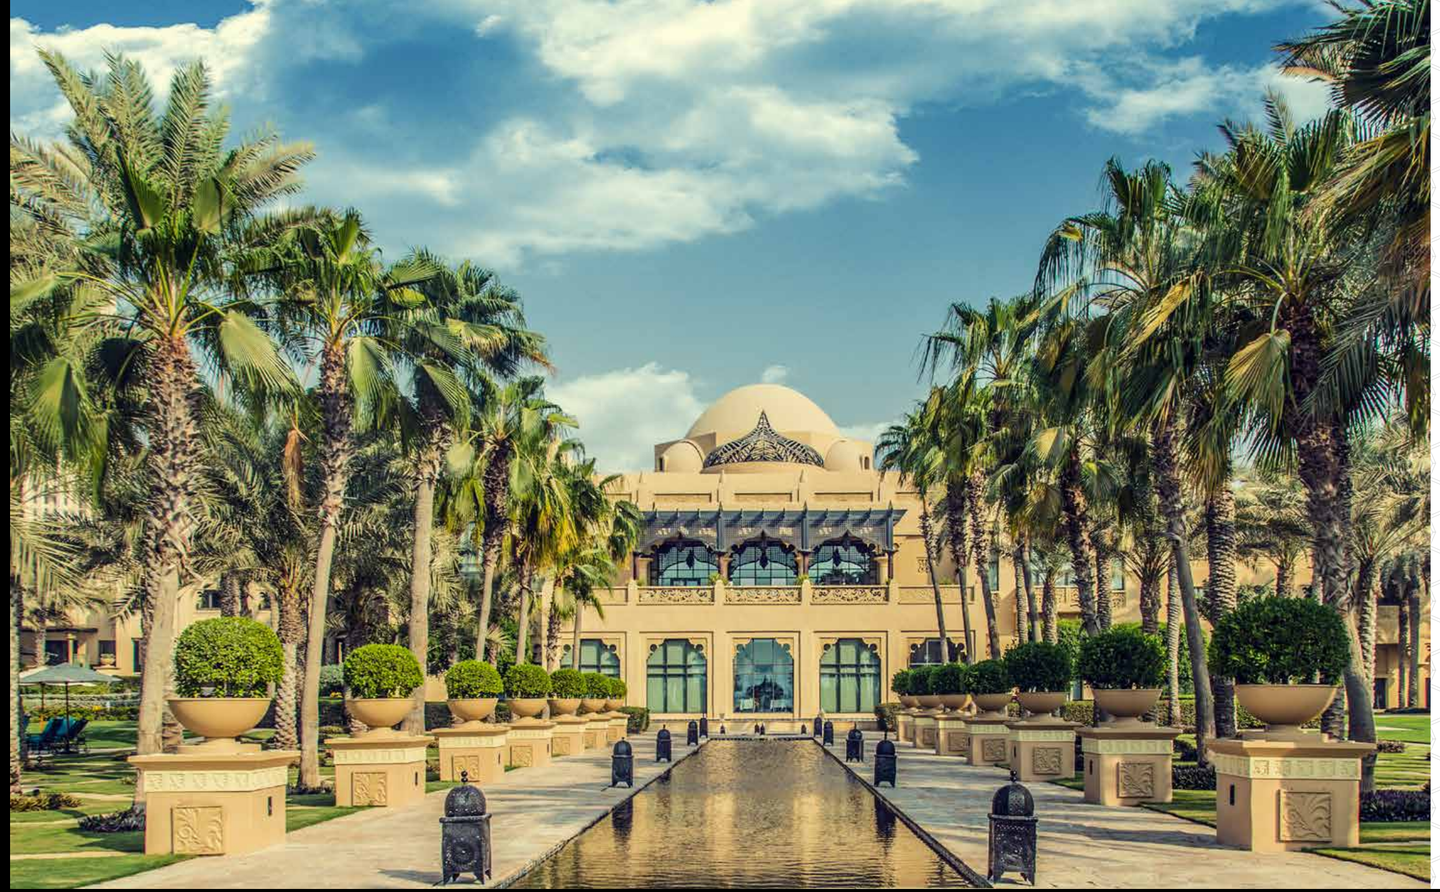

**Consultant:** M/s. Al Burj Engineering Consultant

**Year of Completion:** 2004

**Built Up Area:** 974,000 sq. ft.

**Madinat Jumeirah Phase 3 consists of:**

- Souq
- Convention Centre
- Multipurpose Avenue
- Water Canal
- Villas

# THE ONE & ONLY ROYAL MIRAGE

Royal Mirage is one of our prestigious hotel projects, completed in the year 2007 in two phases. The first phase is The Palace, a seven-star hotel completed in 15 months with F.F.E ready for soft opening. The second phase is the Arabian courtyard completed in 18 months with wide landscaping. The Royal Mirage is one of the best resorts in UAE, operated by Sun International - the same operator of Lost City in Johannesburg, South Africa. The two phases extends over one kilometre at the seacoast Al Sufouh Dubai, adjacent to the Palm island entrance.

**Location:** Al Mina Seyahi, Jumeirah Beach, Al Sufouh, Dubai, UAE

**Client:** H.H. Sheikh Maktoum Bin Rashed Al Maktoum

**Consultant:** M/s. Rice Perry Ellis
